

INTERACTION OF CIVIL ENGINEERING STUDENTS OF IIIT NUZVID WITH STUDENTS OF S.R.R HIGH SCHOOL,NUZVID

IIIT Nuzvid: Education is the key to unlock the door of ignorance. Education is not feeling the degree but to aim high, set goals and achieve them. Some people have their goals but they don't know how to choose a right path. A student team from IIIT Nuzvid observed that difficulty among their friends and they decided to bring awareness among their next generations. So, the students of RGU-IIIT, Nuzvid from Civil Engineering department ,the team CGSDC (Career guidance and Skill Development Cell) along with their Head of The Department K.H Shemeera and few other faculty members had been to S.R.R High School with the support of the Director of the institute, Dr. D. Surya Chandra Rao. The Head master of the school, E.Madan kumar and teaching staff embraced team CG&SDC and received them for "One day Awareness programme" for 9th class students.

Predominantly, R.Tejaswy and Y.Yamini keerthi addressed the students regarding the prominence of education especially 10th class and their college and then Anil and Shiva Mohan elucidated the accessible opportunities after 10th class, such as Intermediate, Degree, Engineering , Masters, Chartered Accounts (C.A) etc,. And further demonstrated the Job opportunities related to several qualifications. Later, the minds of S.R.R High school gladly responded and proposed a few doubts about their triumph.

In the process of awareness ,Team CG&SDC recognised a young talent, Jayakumar, a student of 9th class who created a drone and appreciated him offering their support and guidance towards his future.

By the end of interaction, They presumed that the high school students are high spirited and patriotic due to their zeal toward's Defence and Civil services. So, the team described a few ways to get into Defence and illustrated some tips to win.

As "Health and Education" are 2 vital components in today's life Team from Civil Engineering invoked the students towards the Plastic reduction , Plantation , Cleanliness. Taking the session ahead, Ganesh, Naveen,Rohini and Keerthana unravelled the essence of Waste reduction, Conservation of water resources, and Harmful diseases etc,.
